- SheCodes React
- SheCodes Responsive Design
- SheCodes Frontend Development

University of Central Oklahoma (Undergraduate Degree)   Jan 2014 – May 2016

Geography, 3.4

Snippets

Personal Website ↗

I designed and built my personal website. This website has projects that I have completed in frontend development.

More about me

I want to work for a company that...

Helps their employees grow and gives them the opportunity to do so.

Outside of work I...

Love to rollerblade. I travel with my skates and think its a great way to see a new place.

The coolest side project I've built is...

My weather app with React. I use it almost everyday.

Interests

Podcasts, skating (ideally both and the same time). In my free time, I like to volunteer with my local animal rescue and have fostered over 20 dogs (not at the same time).

Languages spoken

Spanish
